Team Name: _____

EGE2123: Entrepreneurial Engineering Design Studio
Design Validation Plan (DVP) Worksheet

- Create a row for each of your target specifications based on your design requirements. At least one must reflect productivity.
- Based on the noises that your team identified, *include at least one row to test your product function under non-ideal conditions* (noise).

Design Requirement/Noise	Metric	Accepted Value(s)	Actual Value	Pass/Fail

Design Requirement/Noise	Metric	Accepted Value(s)	Actual Value	Pass/Fail
