

## Plan of the day

### Week 8 PSS 2

(Times mentioned here, can be adjusted for your section)

12:30-12:40 Opening comments, turning point questions

- First, share a slide with the milestones we're looking for today.  
Milestone 1: "A description of the medical disorder being addressed "and "Description of the design"  
Milestone 2: Identifying what the flaw was in the design, what was "biased" about it. Defining bias per Webster-Merriam's dictionary definition which is "a personal and sometimes unreasoned judgment, or an instance of such prejudice. And prejudice is defined as an adverse opinion or leaning formed without just grounds or before sufficient knowledge".
- Recommended Turning point questions:  
"how confident they are that they have a good project idea"  
"Share the **golden book title** of their current idea"  
"Share what is muddiest in their mind about how to proceed with the project"

12:40-1:20: Work in groups.

- TAs visit every group, check in on progress towards milestone

1:20-1:30: meet as entire group

- Run turning point question about how confident they are about milestone 1
- Another about what remains muddy about milestone 1
- choose 1-2 groups to share where they are, coach them as a model for the others

1:30-2:10: Work in groups towards milestone 2

- TAs visit every group, check in on progress towards milestone

2:10-2:25: wrap up as entire class

- Run turning point question about how confident they are about milestone 2
- Another about what remains muddy about milestone 2
- choose 1-2 groups to share where they are, coach them as a model for the others
