

In-Class Consulting Day Prep Worksheet

TEAM NAME _____ DATE _____

Mission Statement:

In conjunction with your mock-up prototypes, this worksheet should help you describe your two best concepts (Option A and Option B, the top two concepts ranked on your Concept Selection Matrix Worksheet) to the class for in-class Consulting Day. The goal is to take *your team's assessment* of each option and integrate it with the *feedback you get from classmates, instructors and ultimately your customer* at the **SPRINT 1 REVIEW** to justify your selection of a **FINAL CONCEPT** to pursue that best serves your customer while meeting the design requirements that your team has identified.
